A Brief History

The University of San Francisco began in 1855 as a one-room schoolhouse named St. Ignatius Academy. Its founding is interwoven with the establishment of the Jesuit Order in California, European immigration to the western United States, and the population growth of California and San Francisco as a result of the California Gold Rush.

On October 15, 1855, the school opened its doors to its first class. Three students showed up, a number that gradually grew to 65 by 1858. In 1859, Anthony Maraschi, S.J., the founding president of St. Ignatius Academy, incorporated the institution under California state law, obtained a charter to issue college degrees, formed a board of trustees, and renamed the institution St. Ignatius College. Student enrollment, composed largely of first- and second-generation Irish and Italian immigrants, increased to 457 by 1862.

Further growth in the number of students and rising property taxes prompted St. Ignatius Church and College to move in 1880 to the corner of Hayes Street and Van Ness Avenue, the current site of the Louise M. Davies Symphony Hall. The college opened its doors to 650 students and rave reviews in the local press. The institution occupied a full city block and was described as having “scientific laboratories and departments” as “thoroughly equipped as money can make them” and a library that contained “the cream of knowledge on all necessary subjects.” The attached church was described as “magnificent” and could hold up to 4,000 people. In 1903, the college added a “splendid new gymnasium,” described as the best in the city.

The history of St. Ignatius Church and College at this location came to an abrupt end on April 18, 1906. On the morning of that day, an earthquake, followed by several days of fire, brought the church and college, and most of San Francisco, to almost complete ruin. The city and the institution, however, quickly rebuilt from the devastation. In September 1906, St. Ignatius Church and School reopened in temporary quarters, known as the “shirt factory,” on the southwest corner of Hayes and Shrader streets, currently the site of one of the buildings of St. Mary’s Medical Center. In 1927, St. Ignatius College moved into its new Liberal

Arts Building, the present Kalmanovitz Hall, near the corner of Fulton and Parker Streets. In 1930, at the request of several alumni groups, St. Ignatius College changed its name to the University of San Francisco.

For 160 years, the University of San Francisco has served the citizens of San Francisco and enriched the lives of thousands of people. The institution has graduated students who went on to become leaders in government, education, business, journalism, sports, the sciences, nursing and health care, and the legal and medical professions. Among its alumni, the university counts three San Francisco mayors, a United States Senator, four California Supreme Court Justices, a California Lieutenant Governor, two Pulitzer Prize winners, three Olympic medalists, several professional athletes, and the former president of Peru.

Today the University of San Francisco enrolls more than 10,800 students in its five schools and colleges: The School of Law, founded in 1912; the College of Arts and Sciences, organized in 1925; the School of Management, which began in 1925 as the College of Commerce and Finance and was merged with the College of Professional Studies in 2009; the School of Education, which started as the Department of Education in 1947 and was upgraded to a school in 1972; and the School of Nursing and Health Professions, which began as the Department of Nursing in 1948 and became a school in 1954. USF is one of the most ethnically diverse universities in the nation. Among the entire fall 2015 student population, 49 percent were Asian, African-American, Latino, Native Hawaiian/Pacific Islander, or Native American, and 17 percent were international. In 1964, USF became completely coeducational, though women had been enrolled in the evening programs in law and business since 1927, in education since 1947, and in nursing since 1948. In the fall of 2015, 63 percent of the overall student population was female.

Central to the mission of the University of San Francisco is the preparation of men and women to shape a multicultural world with generosity, compassion, and justice. The institution’s Vision, Mission, and Values Statement, approved by the Board of Trustees on September 11, 2001, after a year of formulation and campus-wide participation, captures the essence of this commitment in its opening paragraph: “The University of San Francisco will be internationally recognized as a premier Jesuit Catholic, urban University with a global perspective that educates leaders who will fashion a more humane and just world.” This mission permeates all aspects of the institution, including student learning and faculty development, curriculum design, program and degree offerings, alumni relations, publications, and a host of other institutional features.

In 2005, the University of San Francisco celebrated the 150th anniversary of its founding. The main USF campus currently occupies 55 acres near Golden Gate Park in San Francisco.

A Brief History Continued

In addition, the university offers classes at four Northern California branch campuses (Sacramento, San Jose, Santa Rosa and Pleasanton), at a Southern California branch campus, and at locations in downtown San Francisco, including the Folger Building at 101 Howard Street and at the Presidio. The schools and colleges comprising the institution also offer students a multitude of international experiences and study-abroad programs that enrich the learning community and fulfill the university's mission. The institution has grown dramatically since its modest beginning. It continues, however, to fulfill a mission that stretches back in time to the founding of the Society of Jesus in 1540 by St. Ignatius of Loyola, that took root in San Francisco in 1855, and that flourishes today in a premier Jesuit Catholic University.

USF Basic Information

President:

Paul J. Fitzgerald, S.J.

Provost:

Donald E. Heller

Sponsorship and Control:

USF is an independent, private, non-profit institution of higher education governed by a 43-member Board of Trustees. It is one of the 28 Jesuit Catholic colleges and universities in the United States.

Founding and Charter:

USF was founded in 1855 and was granted a charter by the State of California to issue college degrees in 1859.

Accreditation:

The University of San Francisco is accredited by the WASC Senior College and University Commission (WSCUC), an accreditation first granted in 1950 by the Western College Association (WCA), the antecedent of WASC. In 2010, WASC reaffirmed USF's accreditation for 9 years.

USF is also accredited by several professional accrediting bodies, including, but not limited to, the American Bar Association (ABA), the California Commission on Teacher Credentialing (CTC), AACSB International—The Association to Advance Collegiate Schools of Business, the Commission on Collegiate Nursing Education (CCNE), the National Association of Schools of Public Affairs and Administration (NASPAA), and the Council on Education for Public Health (CEPH).

Classification by the Carnegie Foundation for the Advancement of Teaching:

USF is classified as a Doctoral/Research and Community Engaged University.

Under the Carnegie Foundation classification system, USF is characterized as balancing arts, sciences, and the professions at the undergraduate level; as doctoral/professional dominant at the graduate level; with the majority of its students being undergraduates; as selective, with a high level of transfer-in students; and as a medium-sized, four-year, and primarily residential institution. In 2006, USF received the community engagement classification in both possible categories, curriculum engagement and outreach and partnership. This classification was renewed in 2015 for 10 years.

Select Firsts, Honors, and Achievements in 2015

- USF was listed as a Tier One National University in the 2015 *U.S. News & World Report*, was 8th in undergraduate student ethnic diversity, and was tied for 7th in the percentage of international students, among 280 national universities.
- In 2015, the Carnegie Foundation for the Advancement of Teaching renewed USF's classification for 10 years as a community engaged institution in both possible categories: curriculum engagement and outreach and partnership. In 2006, USF was one of just 62 institutions that received the initial community engagement classification in those two categories.
- For the eighth consecutive year, USF was named to the President's Higher Education Community Service Honor Roll by the Corporation for National and Community Service. This honor highlights USF students' exemplary service on issues ranging from poverty and homelessness, to environmental justice. Honorees are chosen on the basis of the scope and impact of service projects, percentage of students participating in service activities, and the extent to which the school offers academic service-learning courses.
- Graduateprograms.com ranked USF's MBA program as 45th among its top 50 Graduate Programs in the spring of 2015, based on rating and reviews from 70,000 current or recent graduate students participating in over 1,600 graduate programs nationwide.
- *The Washington Monthly* ranked USF as 18th out of 257 national universities on a combined measure of the number of staff and students supporting community service, and 20th overall for its contribution to the public good for academic research, community service, and support for lower-income students.
- *The Princeton Review* ranked USF 13th on the "College City Gets High Marks" list and made the list of the top-four year colleges and universities in the West in 2015, based on surveys of students who attended the schools.
- *Forbes Magazine* ranked USF 19th on its 2015 list of the nation's most entrepreneurial universities by calculating each school's entrepreneurial ratio: the number of students and alumni who started their own company relative to the school's total student body.
- In 2015, the *Economist* ranked USF 217 out of 1,275 world-wide universities based on the school's economic value for students, defined as the gap between how much money its students subsequently earned, and how much they might have earned had they attended a university elsewhere.
- Stephen A. Privett, S.J., Chancellor, was named to the CEO Hall of Fame by the *San Francisco Business Times*, for his leadership in growing and guiding USF's success while serving as the university's president from 2000 to 2014.
- Elizabeth Davis, Dean of the School of Management, was named by the *San Francisco Business Times* to its 2015 list of the most influential women in the Bay Area.
- The USF School of Law was ranked in the top tier of law schools by *U.S. News and World Report* in 2016. It was tied for 138th among ABA accredited schools due in part to gains in the employment rates of its graduates. The School also placed 64th in a national ranking of scholarly influence among law school faculties by the Social Science Research Network.
- Payscale ranked USF among the top 10 schools in the nation in terms of salary potential for students who earn a degree in social sciences in its 2014-2015 Payscale Potential Salary Reports.
- Graduateprograms.com ranked USF's online graduate programs in nursing as 18th in the nation and its public health graduate program as 14th in the nation, based on reviews by current students or recent graduates of USF's School of Nursing and Health Professions. Students at 1,500 schools nationwide were surveyed regarding their quality of education, faculty accessibility, and career support.
- In 2015, the California Commission on Teacher Credentialing unanimously recommended the re-accreditation of USF's School of Education credential programs for the maximum period of seven years.
- The School of Management was named a GOLD Net Impact Chapter (the highest level) for the last three years, a distinction held by only 38 of the nation's graduate business schools. Net Impact is one of the most prestigious nationally recognized non-profit organizations, as it manages over 300 clubs for students focused on doing well and doing good.
- The Master of Global Entrepreneurship and Management (MGEM) was ranked number 58 in the world by the *Financial Times* among master's in management programs in 2015.

Athletics

In November 2015, Silicon Valley philanthropists John A. and Susan Sobrato, pledged \$15 million, the largest single gift in USF's history, to expand and renovate the War Memorial Gymnasium, creating the multi-use Sobrato Center to benefit all students and to further the Jesuit commitment to educating the whole person.

In 2014-2015, Jennifer Azzi, women's head basketball coach, guided her team to one of its most successful seasons since the turn of the century as the Lady Dons fought their way to the WCC Championships and earned a bid to the Women's National Invitational Tournament, the program's first postseason appearance since 2001-2002. On January 16, 2015, Coach Azzi was presented with the NCCA Silver Anniversary Award, which honors an individual's accomplishments on the court and their contributions to professional organizations and other civic activities on the 25th anniversary of the conclusion of their playing careers. A member of the Women's Basketball Hall of Fame, Azzi's list of accomplishments include a national championship at Stanford, the Wade Trophy and National Player of the Year honors in 1990, a gold medal as part of the 1996 United States Olympic Team, a long professional playing career, and numerous civic activities.

In the fall of 2015, there were 270 student-athletes at USF, 157 of whom had full or partial athletic scholarships.

Among the student-athletes, 138 were men (81 of whom had scholarships), and 132 were women (76 of whom had scholarships).

During the 2013-14 academic year, USF student-athletes performed 1,635.5 hours of community service.

- Miguel Aguilar, a senior forward for the Dons soccer team, who was named to the WCC All-Academic Team from 2012 to 2014, was selected 17th by D.C. United in the overall Major League Soccer's annual super draft held on January 15, 2015.
- Women's soccer enjoyed its best season in program history. Jim Millinder was named NSCAA West Region Coach of the Year as the team achieved its best overall record (13-4-3), highest winning percentage (.725), and most conference wins (7).
- For the second straight year, men's tennis competed in doubles at Indoor Nationals. Bernardo Saraiva '15 won the ITA Northwest Regional Arthur Ashe Leadership & Sportsmanship Award, and was named ITA Northwest Region Senior Player of the Year.
- Women's cross country Coach Helen Lehman-Winters guided the squad to the program's third consecutive NCAA Championship appearance.
- In men's cross country, Alex Short racked up four top 20 finishes and earned All-West Coast Conference and All-West Region honors.
- Volleyball featured six women on the West Coast Conference All-Academic Team.
- In men's basketball, point guard Devin Watson earned a spot on the WCC All-Freshman Team last season and senior captain Tim Derksen was named to the All-WCC Preseason Team.
- In April 2015, USF Boxing Club fighters came away with two titles in the U.S. Intercollegiate Boxing Association (USIBA) national championship. USF's Akira William Chin '17, an English major, defended his welterweight title by defeating Syracuse University's Tony Choa. Leo Gutarov '17, a Finance major, lifted the light heavyweight belt by defeating Saul Hernandez of California State University Northridge. The pairs win adds to the USF boxing Club's reputation as a national powerhouse. USF boxers have won six USIBA national championships and boxed internationally for the U.S. and Philippines boxing teams and at the 2004 Summer Olympics in Greece. The club has multiple Golden Glove champions, as well as regional and national titles.
- The University of San Francisco's NCAA Division I teams include men's basketball, soccer, baseball, golf, tennis, track, and cross-country, and women's basketball, cross-country, golf, soccer, tennis, volleyball, sand volleyball, and track.
- USF NCAA Division I teams have won eight national championships since 1949, including four in men's soccer, three in men's basketball, and one in men's tennis. NCAA individual championships were also won in fencing and in tennis.

Athletics Continued

- The men's basketball team has won 15 West Coast Conference titles since 1949.
- The men's soccer team has won 35 West Coast Conference titles since 1948.
- From 1987 to 2000, the women's basketball team won three West Coast Conference titles, secured three NCAA tournament berths, and had one Sweet Sixteen appearance.
- Sixteen former USF baseball players have made it to the major leagues since 1911.
- USF Dons have been in the Olympics 22 times, including once in the Winter Olympics.

Key Events in 2015

January 30

USF School of Law students scored a national victory in ABA Tax Moot Court competition. Fifty schools competed and the top six were invited to Houston, where the USF team emerged as the winner. Along the way, the USF team beat the University of North Carolina School of Law in the semifinals and the UC Irvine School of Law in the finals. The next week, another team of USF School of Law students won the regional moot court competition for the International Trademarks Association. The USF law school team competed against UC Berkeley Law and University of Hawaii Law School. Other law schools in the competition included Stanford, Hastings, Santa Clara, UC Davis, and Washington.

April 10 and 11

USF hosted the first conference in the nation to examine how Islamic studies and the growing number of Muslim students at U.S. Jesuit Catholic colleges and universities are influencing scholarship, the institutions' missions, and campus life. Speakers and participants discussed the implications of supporting Islamic studies at Jesuit institutions, emphasizing the importance of understanding other faiths as part of the Jesuit mission. Aysha Hidayatullah, who teaches Islamic Studies at USF, and recently published the book *Feminist Edges of the Qur'an*, convened the conference for faculty and staff who work on issues related to Islam, Muslims, and Christian-Muslim relations. Delegates from 24 of the 28 U.S. Jesuit colleges and universities attended the conference.

April 14

Alejandro Toledo, USF class of 1971, and former president of Peru, returned to his alma mater to discuss Latin America's economic rise and growing global influence over the past 20 years. Toledo, who studied economics at USF, discussed his book, *The Shared Society: A Vision for the Global Future of Latin America*. In the book, Toledo prescribes steps he believes Latin American leaders can take to turn the region into a leading force for positive change in a globalized world. He points to economic and social inequality and political disenfranchisement as issues that could derail the region's advancement, if not addressed. Toledo grew up in a small fishing village and shined shoes and delivered newspapers as a boy to earn money for his family. He was the first in his family to attend high school and came to USF on a partial soccer scholarship. After graduating from USF, Toledo earned a doctorate from Stanford University. He was elected president of Peru from 2001 to 2006, where he helped institute economic reforms. Later, he founded and continues to serve as president of the international nonprofit Global Center for Development and Democracy.

April 18

On Earth Day, USF launched the Office of Sustainability, which will lead efforts on campus to integrate sustainability into USF's daily operations and support individuals throughout the USF community to promote green initiatives.

April 20

Bob St. Clair, a member of the Pro Football Hall of Fame, who was a standout on USF's famed "undefeated, untied and uninvited" 1951 football team, passed away. He was 84 years old. A native San Franciscan, Mr. St. Clair held the distinction of playing virtually his entire career in the same city and stadium. Despite the Dons' perfect football record in 1951, St. Clair was on a team that was not invited to any post-season bowl games, which should have been a given for a team with USF's spectacular season. The reason the USF team was not invited soon became clear: racism. In the benighted days of 1951, teams with black athletes simply were not invited to play in post-season bowl games. Finally, the organizers of the Orange Bowl did express an interest in having the Dons play, but only if they left their two black players (Ollie Matson and Burl Toler) behind. St. Clair, and all the team's players, adamantly refused this offer, stood on principle, and transcended the segregated and racist temper of the times.

April 23

USF alumni, staff, and supporters first attained, and then more than quadrupled, the 300-supporter goal in the university's first annual Day of the Dons. More than 1,250 USF supporters joined the cause, contributing amounts from \$10 to \$10,000 during the 24-hour campaign. In all, Dons contributed more than \$220,000, averaging about \$100 per person.

April 29

USF awarded its California Prize for Service and the Common Good to the Chronicle Season of Sharing Fund for its 29 years of supporting Bay Area families. The award was presented by USF President Paul Fitzgerald, S.J., to Jeffrey Johnson, fund president and San Francisco Chronicle publisher, at a gala dinner and celebration held on the USF campus. The Chronicle Fund has provided more than \$105 million in assistance to families on the edge of homelessness since its founding in 1986.

May 1

The California Commission on Teacher Credentialing re-accredited USF's School of Education credential programs for the maximum period of seven years. The unanimous recommendation of the accreditation team was based on a thorough review of the institutional self-study; additional supporting documents available during the visit; interviews with administrators, faculty, candidates, graduates, and local school personnel; along with additional information requested from program leadership during the visit. The team agreed they obtained sufficient and consistent information that led to a high degree of confidence in making overall and programmatic judgments about the professional operation of the School of Education.

May 20

For the eighth straight year, USF was named to the President's Higher Education Community Service Honor Roll by the Corporation for National and Community Service. This honor highlights USF students' exemplary service on issues ranging from poverty and homelessness, to environmental justice. Honorees are chosen on the basis of the scope and impact of service projects, percentage of students participating in service activities, and the extent to which the school offers academic service-learning courses.

May 21 through May 23

More than 2,000 graduates received diplomas, and heard an impressive set of commencement speakers, including Audrey Cooper, the first woman editor-in-chief of the San Francisco Chronicle; Sylvia Earle, a National Geographic Society explorer-in-residence; Lawrence Brilliant, M.D., world-renowned physician, epidemiologist, author, and philanthropist; Patrick McGrath, Bishop of San Jose; Gerald Wade, Chancellor of Bellarmine College Preparatory; James Bell, Executive Director of the W. Haywood Burns Institute for Juvenile Justice Fairness and Equity; Cheryl Dorsey, M.D., President of Echoing Green Foundation; and Charles Phan, owner of the Slanted Door Restaurant in San Francisco.

May 26

John Lo Schiavo, S.J., former USF President (1977 to 1991) and Chancellor (1991 to 2015), who put the university on firm financial footing, purchased Lone Mountain, expanded academic programming, and took a nationally-recognized moral stand in temporarily suspending USF's famed basketball program, was remembered at a funeral mass in St. Ignatius Church. The popular campus figure died May 15 at the age of 90. The hundreds of mourners who filled the church were representative of Fr. Lo Schiavo's range of influence and the impact he had on the San Francisco community. Those attending included officials such as Lt. Gov. Gavin Newsom and former San Francisco Mayor Frank Jordan, as well as several church leaders, former students, family, current staff, faculty members, and fellow priests. Current USF Chancellor Stephen Privett, S.J., gave the homily.

June 8

James Wisner, former USF provost and vice president for academic affairs, returned to the university as interim provost, while a nationwide search continued for a permanent replacement to fill the provost position. Wisner, a USF emeritus professor of politics, served as USF's provost from 1998 to 2010. Before coming to USF, Wisner was senior vice president and dean of faculties at Loyola University Chicago from 1989 to 1997. In addition to his two decades of provost-level experience, he was a consultant on higher education for the Detroit and Chicago provinces of the Society of Jesus as well as a political science professor at Loyola University Chicago. Wisner took over from Jennifer Turpin, who was USF's first female provost and served from 2010 to 2015. Dr. Turpin will take a year sabbatical and return to USF as a professor of sociology.

July 20

Jeffrey Brand, a USF law professor since 1986, and dean of the School of Law from 1999 to 2013, was appointed by Governor Jerry Brown to a judgeship in the Alameda Superior Court.

August 1

Former USF President Stephen A. Privett, S.J., assumed his new position as Chancellor. He was appointed by USF President Paul J. Fitzgerald, S.J., with the approval of Michael Weiler, S.J., California Provincial of the Society of Jesus. Fr. Privett will serve as a special advisor to the president, a key administrator for special projects, and an important campus leader.

September 10

USF President Paul J. Fitzgerald, S.J., was a featured panelist for the Commonwealth Club public affairs forum on "Pope Francis: Climate Changer?" Joining Fr. Fitzgerald at one of the nation's leading public affairs forums were Sam Liccardo, mayor of San Jose, and Reverend Sally Bingham, founder of Interfaith Power and Light, and canon for the environment in the Episcopal Diocese of California.

October 4

Gordon Getty, class of 1955, was named alumnus of the year at the University's Alumni Awards Gala. Mr. Getty has composed internationally performed operas and other musical works, received numerous musical awards, founded investment companies, and created the Ann and Gordon Getty Foundation, which awards millions of dollars each year to nonprofit organizations. He is one of six outstanding alumni who have been honored in past years for their service to the community and dedication to USF.

October 4

USF's School of Education celebrated the 40th anniversary of its doctoral programs, which include organization and leadership, curriculum and instruction, international and multicultural education, Catholic educational leadership, and counseling and psychology. Speakers at the event, organized by professor Patricia Mitchell, included Paul J. Fitzgerald, USF president; Kevin Kumashiro, present dean of the School of Education; and Allen Calvin, the School's former dean, who initiated the doctoral programs in 1975.

October 30

Donald E. Heller, Dean of the College of Education at Michigan State University, was selected as USF's new provost and academic vice president, from among 250 candidates nationwide. While dean at Michigan State, Dr. Heller simultaneously served as a trustee at DePaul University. His expertise includes finance and enrollment in higher education; affirmative action; and policies and programs that promote college access and success for first-generation, minority, and low-income students. He has published more than 175 articles, book chapters, and other scholarly works, is the editor or co-editor of six books, and has held faculty positions at several major universities. Heller earned a doctorate in higher education from Harvard University.

Key Events Continued

November 15

Former USF President John P. Schlegel, S.J., died after being diagnosed with pancreatic cancer earlier in the year. Fr. Schlegel served as USF's 26th president from 1991 to 2000. During his administration, USF's enrollment expanded, student and faculty diversity increased, the campus was significantly beautified, and the university conducted the largest fundraising campaign in its history up to that time.

November 18

Silicon Valley philanthropists John A. and Susan Sobrato, pledged \$15 million to USF, the largest single gift in USF's history, to expand and renovate the War Memorial Gymnasium, creating the multi-use Sobrato Center to benefit all students and to further the Jesuit commitment to educating the whole person.

December 8

Dolores M. Staudenraus, a decorated battlefield nurse during the Vietnam War, who later worked as a director for the U.S. Public Health Service, left an \$8 million estate gift to USF. The gift will be designated for student scholarships, with a preference to students from Stockton and the Central Valley, where Ms. Staudenraus was raised. She earned her undergraduate nursing degree from USF's School of Nursing in 1954, and obtained a master's degree in public health from UC Berkeley.

December 18

USF honored 431 undergraduates, 371 graduate students, and 44 doctoral candidates at the winter commencement. Speakers included Janice Hatsuko Mirikitani, activist and former poet laureate of San Francisco, who received an honorary doctorate; John L. Hennessy, the president of Stanford University, who received an honorary doctorate; and John F. Nicolai, class of 1971, a USF board member and partner at the investment advisory firm Greer Anderson Capital.

Faculty/staff Publications, Presentations, and Awards 2015

Dru Bhattacharya, Director of the MPH Program and Associate Professor, School of Nursing and Health Professions, has been named the 2014 recipient of the Early Career Award for Excellence in Public Health Law from the American Public Health Association's (APHA) Law Section. The award is given annually to an individual who demonstrates great promise as a future leader in the field of public health law. The individual's major contributions to the field should include research, teaching and mentoring, practice and advocacy. The award was presented to Professor Bhattacharya at the APHA Annual Meeting on November 17 in New Orleans.

Ursula Aldana, Professor of Leadership Studies, School of Education, received a 4.5 year grant for \$163,000 from the International Baccalaureate Organization, a Swiss Foundation. Professor Aldana will collaborate with Dr. Anysia Mayer (CSU Stanislaus) and Dr. Patricia Gandara (UCLA) to examine school outcomes and engagement of high school and postsecondary students from low-income households in California who participate in the International Baccalaureate Diploma Programme.

Monisha Bajaj, Associate Professor, International and Multicultural Education, School of Education, received a grant of \$49,554 from the Spencer Foundation. Her project is entitled "Transnational Civic Engagement of Immigrant and Refugee Youth at a Newcomer High School in California." Her research examines how recent immigrant youth engage with notions of rights, citizenship, and civic identity as they integrate into the U.S. and prepare for post-secondary transitions.

David Batstone, Professor, School of Management, was named by *Gentry Magazine* in March 2015 as one of its 50 "Philanthropists of the Year" for his work in attempting to end modern human trafficking in the world, through his San Francisco-based nonprofit organization, Not for Sale.

Megan Bolitho, Assistant Professor, Chemistry, College of Arts and Sciences, was awarded a two-year grant from the Research Corporation for Science Advancement. The grant, the Single Investigator Cottrell College Science Award, provides \$35,000 to faculty members in the first three years of their academic careers. Bolitho's research is centered around quorum sensing (QS), a means of communication utilized by bacterial cells to coordinate group behaviors.

Wanda Borges, Associate Dean for Graduate Programs and Community Partnership, School of Nursing and Health Professions, received a 3-year, \$600,000 grant from the Helene Fund Health Trust. Fifty percent of the grant will be used to establish the endowed Helene Fund Health Trust Scholarship Fund to provide financial aid for Master's Entry Nursing Students. The remainder of the grant will be used to fund current financial aid for students enrolled in Master's Entry Nursing Programs. Wanda Borges and Mary Kate Wood, School of Nursing and Health Professions, received a grant from California's Office of Statewide Health Planning and Department for \$153,000. The grant will provide eight education stipends to doctoral students in the psychiatric mental-health nursing program over the next three and half years. The grant will support students who are committed to working in the public mental health system and prepare them to deliver mental health services that promote wellness, recovery, and resilience.

William Bosl, Assistant Professor, School of Nursing and Health Professions, received an award for \$26,286 from St. Peter's University Hospital for a project entitled "Piloting Electrophysiological biomarkers for autism spectrum disorders (ASD) and related disorders in premature and low birth weight (LBW) infants." A total award of \$56,115 is anticipated by the second year of the project. Dr. Bosl is Co-Principal Investigator and is responsible for the project design, analysis of EEG data, and mapping of EEG features to behavioral measures of cognitive development. The goal of the project is to find early clinically useful brain-based markers of emerging neurodevelopmental disorders in premature and LBW infants, who are at higher risk for developing autism spectrum disorders and other cognitive disorders. The grant is funded by the New Jersey Governor's Council for Medical Research and Treatment of Autism.

Rachel Brahinsky, Faculty Director, Graduate Program in Urban Affairs, College of Arts and Sciences, presented the talk "Whither Left Coast Progressivism?" at the European Urban Research Association City Futures III conference in June, 2014, in Paris.

Jeffery S. Brand, Professor Emeritus, School of Law, Gov. Edmund G. Brown, Jr. announced the appointment of Jeffery S. Brand to a judgeship in the Alameda County Superior Court. Jeff has been a professor at the University of San Francisco School of Law since 1986, where he served as dean from 1999-2013.

Faculty/staff Publications, Presentations, and Awards Continued

Brandon Brown, Professor of Physics, College of Arts and Sciences,

authored *Planck: Driven by Vision. Broken by War*, published by Oxford University Press. The book details the life, work, and times of Max Planck, the famous German physicist who made enormous contributions to his academic field, even as he was suffering personal tragedies during the world wars. Brown's book was very favorably reviewed in *Physics Today*, a publication of the American Institute of Physics.

Richard Callahan, Associate Professor, School of Management, was awarded a \$22,000 grant from the Sierra Health Foundation as part of a \$160,000 grant, and will be co-director of their upcoming Leadership Program. He will direct the design and deliver the program with Dr. Kenneth Kizer, Director of the Institute for Population Health Improvement and professor in the Medical School of the University of California, Davis. He was also awarded the Louis Brownlow Award for Outstanding Academic Paper by the American Society of Public Administration. The paper focused on common pool resources for environment sustainability.

John Callaway, Professor of Environmental Science, School of Arts and Sciences,

will receive \$47,982 over three years from the U.S. Geological Survey (USGS). USGS is the lead agency on this NASA-funded grant entitled "Developing a Nation Framework for Carbon Monitoring in Coastal Wetlands." Dr. Callaway will coordinate data compilation and analysis for one of the six national sites (coastal Louisiana) and participate in modeling and synthesis across the remaining sites (Florida Everglades, Chesapeake Bay, Waquoit Bay, San Francisco Bay, and Puget Sound).

Patrick Camangian, Associate Professor, School of Education, was awarded the 2015 National Academy of Education/Spencer Postdoctoral Fellowship, a \$70,000 award. Through research in the health sciences and critical social theory, his project "From Coping to Hoping: Teaching Youth to Thrive through Trauma," will develop a robust framework for understanding how pedagogy can be both critical and culturally relevant and sustaining, while also better account for the holistic demands youth in urban setting must negotiate. This interdisciplinary framework will serve as the analytical lens for a corpus of qualitative data for an ongoing teacher-action research project in the Oakland Unified School District.

Hsiu-Lan Cheng, Assistant Professor, Counseling Psychology, School of Education,

has received a grant to promote psychological research and training on health disparities. The title of her research project is "Development and Validation of a Measure of Patients' Perceived Racial/Ethnic Discrimination in the Health Care Setting." Dr. Cheng and her students will construct and validate how discrimination in health care is perceived and will apply the construct of racial microaggressions to enhance the understanding and measurement of discrimination in health

care. The one year grant from the American Psychological Association is for \$8,020.

Gretchen Coffman, Assistant Professor, Environmental Sciences, College of Arts and Sciences,

was awarded a one-year grant from the National Geographic Society for her project "Restoration of Critically Endangered Cypress Trees of Laos" in the amount of \$19,532. The grant will support her team of international researchers and USF students. They will locate living stands of cypress within a national protected area in Laos and collect seeds to propagate the trees and restore wetland ecosystems. The team will work with wildlife protection authorities and villagers to educate them about the value of conserving these trees for their nation. She also received a \$5,000 grant from the Chicago Zoological Society for this same project. The University of California, Santa Barbara, to participate in the Santa Clara River Habitat Restoration Project, is also funding Dr. Coffman. Dr. Coffman and her graduate students will develop a study design and conduct long-term monitoring of riparian plant growth and ecophysiology in the restoration area for the next five years. This grant, which is being funded by Ventura County Watershed Protection District, is for \$50,000.

Alexa Curtis, Assistant Professor, School of Nursing and Health Professions,

was awarded \$149,999 from the State of California Office of Statewide Health Planning and Development. This two-year grant will support the development of rural health academic practice partnership to increase inter-professional train opportunities for USF's nurse practitioners students. Ultimately, funds from this grant will improve the pipeline of healthcare providers for underserved rural communities. She was also awarded \$2,000 from New York University for her project, the Interprofessional Oral Systemic Health Teaching Learning Activity. Working with dental health professionals, she will develop a web-based instructional resource to prepare dentistry students at University of the Pacific and USF School of Nursing and Health Professions for a clinical experience in pediatric oral-systemic health care.

Elizabeth Davis, Dean, School of Management,

was named by the *San Francisco Business Times* to its 2015 list of the most influential women in the Bay Area. The list recognizes 100 outstanding women professionals who make a difference in their companies, industries, and communities.

Thomas Cavanaugh, Professor of Philosophy, College of Arts and Sciences

has received the Enduring Questions National Grant from the National Endowment of Humanities agency for his new innovative course, "What is Wisdom?" Cavanaugh's course is an enquiry driven seminar class sponsored by the NEH's Enduring Questions program, and endeavors to answer questions about wisdom.

Dellanira Garcia, Assistant Professor, PsyD Program, School of Nursing and Health Professions,

was awarded a National Institutes of Health Loan Repayment Program Award for her continued work on health disparities among Latino populations. This is a two-year award, and its objective is the recruitment and retention of qualified health professionals whose research focuses on minority health disparities or other health disparities.

Bill Ong Hing, Professor, School of Law,

received a sub award in the amount of \$86,300 from the Central American Resource Center (CARECEN). This support is from a grant funded by the City of San Francisco to provide legal representation to children and families with cases in the San Francisco Immigration Court in 2015. The Sub Award will be used to fund the School of Law's Immigration and Deportation Defense Clinic. In addition, he was awarded a grant from the California Department of Social Services in the amount of \$112,000 to provide legal services to unaccompanied, undocumented minors. The Refugee Programs Bureau funds nonprofit legal organization to provide these services, and USF's Immigration Law Clinic will represent 28 minors in Northern California in the next six-month period. He also has been awarded additional funding of \$40,000 from the California Department of Social Services to continue providing legal services to unaccompanied, undocumented minors. The Refugee Programs Bureau funds nonprofit legal organizations to provide these services and USF's Immigration Law Clinic will represent minors in Northern California.

Peter Jan Honigsberg, Professor, School of Law,

was awarded \$57,967 from The Anita Roddick Foundation to continue the activities of his Witness to Guantanamo Project. The purpose of the grant is to film full-length interviews with former Guantanamo detainees and others involved in the prison in Guantanamo Bay, Cuba; as well as to preserve, edit, transcribe and post interview clips on its website, witnessstoguantanamo.com. The project has currently filmed interviews with 121 people in 18 countries. He also received \$100,000 from the Oak Foundation and \$5,000 from the Samuel Rubin Foundation for this project.

Alark Joshi and David Wobler, Computer Science,

were awarded a grant of \$34,650 from the Google Foundation to conduct a summer workshop, Mobile Computer Science Principles, that will enable San Francisco high school teachers to start courses based on App Inventor and mobile computing. USF students will work in San Francisco schools assisting teachers during the 2015-2016 school year to help sustain a community of practice.

Rosa Jimenez, Assistant Professor, School of Education,

received a 2014-2015 National Academy of Education/Spencer Postdoctoral Fellowship award in the amount of \$55,000. This year, 25 fellows were selected from a competitive pool of 365 applications from scholars of education.

Jessie Jones-Bell, Adjunct Faculty and Program Coordinator for the RN Transition to Practice Program,

received a grant award of \$99,992 from the Kaiser Permanente Northern California Fund for Health Education. This was the fourth award from Kaiser to support the New RN Transition to Practice Program in Community Settings. The grant will support two cohorts of New Graduate RNs interested in developing their professional role as a new RN in community based settings.

Deneb Karentz, Professor, Biology and Environmental Science, College of Arts and Sciences,

has been awarded \$233,985 from the National Science Foundation for a five-year grant to manage and conduct an international polar biology training program in Antarctica for early-career scientists (PhD students and postdoctoral scholars). The funding will support two month-long advanced field courses focused on biological adaptations to environmental change in Antarctica, and will provide a unique opportunity for hands-on experience to the next generation of polar researchers. The grant is a collaborative effort with Dr. Donal Manahan at the University of Southern California who has been awarded \$340,706. In addition to grant funding to USF and USC, NSF will provide logistics support for travel and research activities in Antarctica during the two field seasons (2016 and 2018). This is Dr. Karentz's tenth award from the NSF.

Courtney Keeler, School of Nursing and Health Professions,

was awarded the first year of funding through a sub award from the University of California, San Francisco. She will receive \$56,275 over a three-year period for her participation on an NIH grant entitled the "Economic Impact of Tobacco Taxes in the African American Community."

Judith Lambton, Professor, School of Nursing and Health Professions,

received \$1.7 million from a US Army Medical Research Acquisition Activity grant to help build a simulation research lab for the School of Nursing and Health Professions. This state-of-the-art lab will engage in research to determine how best to teach nursing students to improve patient safety and avoid medical error by using sophisticated clinical learning equipment. Nursing faculty will research simulation strategies that can be adapted across disciplines. The research design of this three-year grant includes both assessment and training and will allow faculty to measure the cognitive and affective levels of the students' ability.

Richard Leo, Professor, School of Law,

authored "Police Interrogation and Coercion in Domestic American History: Lessons for the War on Terror," in *Torture, Law and War: What are the Moral and Legal Boundaries on the Use of Coercion in Interrogation?* (forthcoming).

Genevieve Leung, Assistant Professor, Rhetoric and Language,

was received a grant from Language Learning for \$9,901 for her project "Cantonese English Dual Language Immersion." She and Dr. Yuuko Uchikoshi, from the University of California, Davis, will look at the linguistic gains, socioemotional impact and pedagogical implications of dual language immersion.

Giovanni Meloni, Associate Professor and Von Soosten Chair of Chemistry, School of Arts and Sciences,

has received an award from the American Chemical Society's (ACS) Petroleum Research Fund. He and his students will continue to expand their investigation of the photoionization behavior of species relevant to combustion chemistry. This new project will provide his undergraduate and graduate students practical access to research in physical chemistry. The three year grant is for \$70,000 and is Dr. Meloni's second award from ACS.

Maria Ontiveros, Professor, School of Law,

authored "Migrant Labour in the United States: Working Beneath the Floor for Free Labour?" in *Migrants at Work: Immigration and Vulnerability in Labour Law*.

Renate Otterbach, Senior Research Analyst, Office of Assessment and Accreditation Support

had her paper "Combining Qualitative and Quantitative Methods to Identify Modifiable Factors for Retaining First-Time Freshmen" selected by the Rocky Mountain Association of Institutional Research (RMAIR) as the 2015 Best Paper. Dr. Otterbach will receive a grant to present her paper at the 2016 Association of Institutional Research (AIR) Forum in New Orleans.

Terence Patterson, Professor, Counseling Psychology, School of Education,

was elected chair of the San Francisco Mental Health Board. The Mental Health Board represents and ensures the inclusion of the diverse voices of consumers, citizens, and stakeholders in advising how mental health services are administered and provided. Dr. Patterson was also re-appointed to a three-year term on the California Psychological Association Ethics Committee, which serves as a resource to psychologists throughout California on ethical issues.

D.A. Powell, Professor, English, College of Arts and Sciences, was the recipient of the 2015 Shelley Memorial Award, presented annually to a living American poet selected with reference to his or her genius by a jury of poets. D.A. Powell is the author of five poetry collections, including *Useless Landscape*, *or a Guide for Boys*, which received the National Book Critics Circle Award in poetry. In 2014, Graywolf released *Repast: Tea, Lunch, and Cocktails*, a reissue of Powell's first three collections.

Sami Rollins, Associate Professor, Computer Sciences, College of Arts and Sciences,

was awarded a \$10,000 grant from the National Science Foundation to support students at U.S. institutions who attended the 4th Networking Women (N2Women) Workshop. The conference was held at the ACM Special Interest Group on Data Communication in Chicago in August 2014. Student participants consisted of underrepresented graduate students who were exposed to state-of-the-art research and had the opportunity to interact with leading researchers and fellow graduate students. She also has a three-year NSF grant

of \$179,863 for a project to encourage broader adoption of renewable energy sources, which is key to minimizing dependence on the electric grid and fossil fuels. The project will provide an improved understanding of energy consumption and generation in homes, particularly green homes. Dr. Rollins, along with her collaborator, Dr. Nilanjan Banerjee, at the University of Arkansas, will conduct a broad study of 15 homes which are both grid-tied and off-grid, and powered by a variety of renewable sources. They will study energy generation and how it is consumed, and conduct research critical to encouraging the adoption of more environmentally responsible practices in the home.

Calla Schmidt, Assistant Professor, Environmental Science, School of Arts and Sciences,

has been awarded a three-year grant from the National Science Foundation for \$196,746. In collaboration with Mt. San Antonio College and the College of the Atlantic, Dr. Schmidt and her colleagues will engage a diverse cohort of undergraduates in hands-on, career-applicable environmental science experiences. The project will expand student awareness of traditional and nontraditional environmental science careers and focus on the skills and content knowledge necessary for career preparation.

Mary Seed, Professor; Jessie Jones-Bell, Adjunct Professor; and Cathryn Halford, Adjunct Professor; School of Nursing and Health Professions,

received a one-year \$44,537 grant from the Gordon and Betty Moore Foundation. The award will support the Ambulatory Care Training Institute, which will provide a toolkit for and consultation to other schools to develop transition-to-practice programs for new graduates. The Institute will also provide assistance for revising curricula to include content and clinical experiences in non-traditional settings. The grant was awarded through the foundation's Betty Irene Moore Nursing Initiative's Spotlight on Success Grant Program.

Laleh Shahideh, Associate Vice Provost and Dean of Academic Services,

received a \$25,000 gift from the Nick Traina Foundation for CAPS (Counseling and Psychological Services) After Hours, and the Nick Traina Crisis Funds for youth in jeopardy. This gift will help guarantee that students in crisis have access to potentially life-saving counseling services at the exact time they need to talk with a clinician. Additionally, this gift will help students in jeopardy who need immediate tuition assistance in order to continue their studies at USF because of a personal or family crisis.

Claire Sharifi, Gleeson Library| Geschke Center, and Barbara Sattler, School of Nursing and Health Professions

have been awarded \$9,000 from the National Network of Libraries of Medicine. Their grant will enhance nursing skills by training nurses to use the National Library of Medicine's ToxNet suite of resources to assess and address environmental health. They will develop a new online training program for nurses that include case studies, specialized tutorials, guides and bibliographies. Participating nurses will learn how to integrate evidence based on environmental health resources into their professional practice.

Juliet V. Spencer, Professor of Biology, College of Arts and Sciences,

was awarded a three-year NIH grant in the amount of \$424,783. With funds from the NIH grant, Dr. Spencer and her student researchers will study the molecular interactions between human cytomegalovirus (HCMV) and the immune system. This will aid in the future development of an HCMV vaccine and could also identify new anti-viral drug targets. This is Dr. Spencer's fourth consecutive NIH grant. She also received a \$300,000 grant from the Avon Foundation for Women to research this topic, and a \$25,000 gift from Claudia and Roger Salquist for the purchase of a Thunderbolt Analyzer from Gold Standard Diagnostics for research by students and faculty.

Yaniv Stopnitzky, Assistant Professor, Economics, College of Arts and Sciences,

received \$99,999 from the BASIS project at the University of California, Davis, which is funded by the U.S. Agency for International Development. He and his colleagues from partner institutions (the University of Dar Es Salaam and the University of Alaska) will test a novel approach to improving the way that small-scale fisheries are managed. Over 18 months, the team will implement experimental games as a pedagogical tool for training individuals and communal organizations in how to participate effectively in local fishery management. The project will reduce overfishing and improve the well-being of the many fishing-dependent, rural communities in Tanzania.

John Sullivan, Professor of Biology, College of Arts and Sciences, received a two-year grant from the National Institutes of Health for \$296,713. He is researching the disease schistosomiasis, which afflicts approximately 200 million persons in developing countries. The disease is caused by several species of schistosome blood flukes, which develop in compatible species of freshwater snails. Compatibility between schistosomes and their snail intermediate hosts is determined in part by the outcome of the interaction of the larval parasite with the host's innate immune system, and in incompatible snails the larval schistosome parasites are attacked and killed by immune cells. The specific aims of the proposed research are to identify one or more specific pathogen-associated molecules to which the innate immune system of *B. glabrata* responds, and then to characterize this response at the molecular level.

Jacqueline Taylor, Professor of Philosophy, College of Arts and Sciences,

recently published her book *Reflecting Subjects: Passion, Sympathy, and Society in Hume's Philosophy*. The book is an original reconstruction of Hume's social theory, which examines the passions and imagination in relation to institutions such as government and the economy.

Sergio De La Torre, Assistant Professor, Art + Architecture, College of Arts and Sciences,

received two new grants: \$16K from the Warhol Foundation and \$15K from the San Francisco Arts Commission to work as a curator on an exhibition called "La Fotografia en Mexico, 1996-2014." This project is an exhibition covering photographic practices in Mexico during the last 25 years. A catalog, with a historical survey of photography in Mexico, will accompany the exhibition. The exhibition opened in San Francisco at SF Camerawork in Spring 2015 and will travel to Arizona State University Art Museum in Summer 2015, Instituto Sonorense de Cultura in Fall 2015, and El Centro de la Imagen Mexico City in Spring 2016 .

David Uminsky, Assistant Professor, Mathematics, College of Arts and Sciences,

received an NSF grant for three years for \$149,994 for his project "Dynamics and Pattern Formation of Non-local Collective Motion and Assembly ." This is a Research for Undergraduate Institutions (RUI) award in partnership with Dr. James von Brecht at UCLA. Professors Uminsky and von Brecht will be studying pattern formation and related phenomena that occur in systems with a large number of "particles" driven by non-local collective motion laws. The math of these particle systems has relevance for many disciplines, appearing in models in physics, chemistry, and biology. Two undergraduate students will contribute to the research and participate in summer study at UCLA.

Aparna Venkatesan, Associate Professor, Physics and Astronomy, College of Arts and Sciences,

is part of a three-year collaborative grant for \$437,883 that was funded by the National Science Foundation to support the Undergraduate ALFALFA Team (UAT) project . Led by Professor Rebecca Koopmann at Union College, the UAT is a consortium of 19 undergraduate-focused institutions across the United States, of which USF is one of the newest members. This NSF-funded work with UAT will provide Professor Venkatesan and USF undergraduates with hands-on observing and data analysis experience at a world-class observing facility through annual workshops, involvement in a summer research program, opportunities to network and present results at national meetings, computer support for data analysis and remote observing, and cutting-edge collaborative research projects. Three USF physics major/astrophysics minor students have participated to date in ALFALFA research and activities. Christopher Downing (Class of 2013) and Haley Sharp (Class of 2012), and a third student, Long Yan Yung (Class of 2014), observed at Arecibo Observatory in January 2013 with Prof. Venkatesan . Dr. Venkatesan was selected as a 2012 Dean's Scholar recipient in large part for her contributions in theoretical cosmology. Her work is currently being used by others to help detect the first sources of light in the universe and to understand the physical conditions in primordial galaxies.

Peter Williamson, Assistant Professor, School of Education, was awarded the third year of funding for the Transition to Teaching grant, which will total \$2,451,961 for five years. This Department of Education grant supports the goals of the San Francisco Teacher Residency program (SFTR). SFTR is a partnership among USF, Stanford University, the San Francisco Unified School District, the United Educators of San Francisco, and the San Francisco Education Fund. Through SFTR, more than 150 highly skilled teacher candidates will be recruited and prepared to teach in San Francisco's public schools in high-need subject areas such as math, science, and bilingual education. The program integrates masters' level courses with a year-long apprenticeship under the guidance of highly skilled demonstration teachers. The grant will support many of the fieldwork, induction, and research components of the program.

David Wolber, Professor, Computer Science, College of Arts and Sciences,

was awarded an NSF grant entitled "Collaborative Research in Computational Thinking through Mobile Computing." This collaborative project involves MIT, Wellesley College, the University of Massachusetts, Lowell and Trinity College, and is for three years in the amount of \$565,836. USF's award is for \$94,839. The goal is to motivate more students to learn the fundamentals of computing by enabling them to build apps for phones and tablets. The project leverages App Inventor, a new visual programming tool for building mobile apps, and will focus on the creation of online, Khan Academy-like teaching resources. Additionally, he was awarded a \$200,000 grant by the Keck Foundation to help further develop AppInventor and the Democratize Computing Lab at USF. Professor Wolber has received a host of awards, including a NSF grant, to support his

groundbreaking research.

Mary Kate Wood, Assistant Dean; and **Jessie Jones-Bell**, Adjunct Professor, School of Nursing and Health Professionals received a \$97,600 grant from Kaiser Permanente Northern California Fund for Health Education in September 2014. The award will support the RN Community-Based Transition to Practice Program, which builds the capacity of community-based care providers by preparing newly graduated RNs to succeed in these unique settings.

Alan Ziajka, Associate Vice Provost for Academic Affairs and University Historian, and **Robert Elias**, Professor of Politics, co-authored the *University of San Francisco*, part of Arcadia Publishing's Campus History Series. Through images and accompanying text, the book traces the history of USF from its founding in 1855 through 2014.
