The *Journal of Hispanic/Latinoax Theology* is a preeminent peer-reviewed journal for Latinoax Christian scholarship in systematic, pastoral, and practical theology, scriptures, ethics, and religious history. Founded in 1993, the *JHLT* is published by ACHTUS, the Academy of Catholic Hispanic Theologians of the United States. We showcase the work of thinkers from every religious and ethno-racial background on the religio-cultural condition of Latinoax in the United States. Our disciplinary mainstays are U.S. Latinoax theology and religious studies—ever more informed by transnational and trans-historical perspectives, intercultural theorizing, and interdisciplinary research drawing from fields outside theology and religious studies. The *Journal* publishes two or three issues annually, each comprising articles and essays as well as a book reviews.

A Note on Terminology

Language has rules. It is also a fluid and evolving reality. We are especially aware of this at JHLT as we examine Latinoax religious, theological, social, and cultural realities. Our original name, the *Journal of Hispanic/Latino Theology*, already reflected the contested and evolving nature of the terminology we use to name ourselves and our scholarly field. Our new name, the *Journal of Hispanic/Latinoax Theology* (see “The *JHLT*’s New Name” below) continues to reflect both continuity and change in our language and our field.

Since our founding, a quarter of a century ago, our language about culture and identity has continued to evolve, as has our language about gender. We rarely use the term “Hispanic”—except in the title of the *JHLT*. We no longer use the masculine form “Latino” as a generic and have changed the descriptor in the journal’s title.

Within the journal’s articles and reviews, our current editorial policy is to leave individual authors the freedom to use their preferred term: *Latinoa*, *Latin@*, *Latin@’*, *Latinx*, *Latine* or *Latinoax*. We also leave them an option to use one of these terms exclusively or to vary the terminology within a given essay. Their decisions reflect their own considered perspectives on identity.

The terms *Latinoa*, *Latina*, *Latino*, *Latin@*, *Latin@’*, *Latinx*, *Latine*, and *Latinoax* do not refer to Latin Americans. When referring to the population of the Americas outside of the United States and Canada, we use “Latin Americans.”
