Gleeson Library | Geschke Center

Updated February , 2018

1. Print and fill out the *Electronic Thesis/Project Submission Agreement Form* on the last page of this guide. You will be asked to upload a signed copy together with your thesis/project later in the process.
2. Go to **USF Scholarship Repository** website at: <http://repository.usfca.edu>
3. Select “Submit Research” under **Author Corner** on the left side navigation.

4. On “Submit Your Research” page, scroll down to **Theses, Dissertations, Capstones and Projects** section. Select the appropriate link for your work.

5. You will be prompted to log into the repository. If you have never registered with the repository, please create a new account using an email address that will still be in use after your graduation.
6. Fill out the submission form and upload your file (PDF is preferred. Word files will be automatically converted to PDFs, but non-standard formatting might be lost).
7. Check the “**additional files**” box right above the “Submit” button before you proceed.

A screenshot of a submission form. At the top, there is a red banner that says 'REQUIRED Upload Full Text'. Below this, there is a section titled 'To locate your file: Click the Browse button to locate your manuscript on your computer.' Underneath, there is a section titled 'Full text of submission:' with three radio button options: 'Upload file from your computer', 'Import file from remote site', and 'Link out to file on remote site'. Below this is a section titled 'Additional Files' which contains a checkbox labeled 'Please check this if you'd like to add additional files' that is checked. A red box highlights the 'Additional Files' section, and a red arrow points to the checked checkbox. At the bottom of the form, there are 'Cancel' and 'Submit' buttons, and a note that says 'This may take a while. Please only click once.'

8. On the next screen, upload a scan/photo of your signed **Submission Agreement** (see last page of this guide). Please fill in the description text box and make sure “**Show**” is unchecked so the file will be hidden from public view.
